FINANCIAL AND COMMERCIAL.

MONDAY, Oct. 16—6 P. M.

The steek market occord very thory and this morning, with considerable activity is tran actions. Here was an improvement in nearly every stock so d, and we notice a good many purchases, as her is option. At the first-band fire Bonds, 1871, advanced 3½ per cent. Eve I about 2. read stock was caused undustedly by the character of the report mad by the committee of reading Railroad does not more uper registions. The sales were not unusually large, a fact indicating increasing conditions to the the committee of received to the atom on the part of holders. Beading Railroad does not more uper registions. Boading Railroad does not move up a rapidly as the pras-porous position of the company warrants us in anticipat-ing. We understand there is some little disagreement between the different totarests re-reseated by the board of directors, re arting the massagement, or rather the president, of the company he quantions at lease had nothing to do with the product vecess of the road. The improvement in military bands to day was general. It

Vance, but it extenses to others and was of a decided character. It will doubtto a be sustained. The market ice of bon's and stee s were made by A. H. Nicolay:

unts and deposits. The backs seem to have taken hold of the matter in earnest. In one week the regular sount line has been reduced nearly three militous of dollars. In the returns for the past week, the report of the Knieverbooker Bank was left out. This accounts for a portion of the large decrears in discounts and deposits. A comparison of the returns for the past week with those for the west previous shows a decrease in discounts of \$2,761 589, in de costa \$1,144 013, in circulabion \$354 304, and as increase in specie on hand of \$100 300. The Knickerbooker Bent last week reported as follows:-Loans \$507.148, specie \$43,018, circulation \$89,-164, deposits \$298,909 These items are all deducted from the aggregates this week, which reduces the more ment to each department more than it otherwise would

The Cumberland Miners' Journal of the 18th instant gives the following account of the coal trade for the week

During the week ending October 13 there were transported over the Comberland C-al and from Company's Railroad 4,099 is tone of onel, and over the Mount charge of 9,098 is tone from the routburg region for the week. The whole amount for the a soon is 844,091 is.

For the same time over the George's Creek Creek Creek and Iron Company's read there were associated 3,873 07 tone, making in the whole, from the Westersport region, for the week, 3,878 07 tone.

Total from all resources for the week, 13,867 05 tone, and since the lat of January last 486,015 15 tone, of when 372,023 by terms were transported over the Battone and Ohio Railroad, and 118,110 05 de cancer the Chesapease and Ohio Railroad.

The Cincis nati Guestie presents the following proposition for an arrangement between the banks and bankers of Ohio and Kentucky, with a vie s to secure a sapply of Surrency. It has been acopted by the former, and it is supposed will be accepted by the latter:-

Supposed will be accepted by the latter:

The report of the committee appointed by
the affairs of the New York and Eric Railroad, appeared
at length, as an advertise ment, in the organs of the company, and was duly puffed and praised, as a amater of
course. The report is very full and verbuse, and is calculated, like all other statements issued by the company, so confuse and confused the modesuch excents

favorable to the company, and we have no doubt the suggestions made will be strictly carried out by the new

The first discrepancy was caused by segarding bills payable as alone constituting a floating debt. and by deducting from them the value of the Buffalo and State Ling. Palits as atoms developed and bills receivable. The balance is assumed to represent the floating debt.

The second discrepancy is caused by reporting only the credits of passenger and freight certains, without deducting from them the value of the fuel to integendent to connecting roads. The rism "other sources," in the report, is made up by adding the Hudson river ferry comings to the ledger balance, with appears to be correct, since the forry exposses are reported.

When we see what it has already done while new, in cumbered and without perfect connections, we have no difficulty in agreeing that it is destined to do deciredly more with exercing that it is destined to do deciredly more with exercine, without incumbrance to the traffic, and with connections cetablished.

At the same time, we cannot shut our eyes to its funancial condition. We are sware of the difficulties with which your board has had to contend, and bear willing testimony to your ardinants and untiting exercious to armount them. But we think you will agree with us that the recent critical situation of the company has domonstrated the insurance of antichetting carnings as largely, and calls it fremeness and judicious management on the part of the directors. If the public can be assured that the construction account is closed, and a scheme can be derived for returning the floating destinating the funded—we see nothing to provent this real from become one of the most valuable railway properties in the verial.

In insuranthia result we recommend—

world.

To insure this result we recommend:

That the construction account be closed.

An increase in your tariff price of freight and passenger, both way and through. We believe that an immediate judicious addition to the present rates is not only due to the stockholders, but will essentially conduce to the permanent welfare of the company.

That no dividends be paid till the floating debt is discreted of.

4 that a strking fund be established, to be paid monthly into the hands of trustees, independent of the company.

monthly into the hands of trustees, independent of the company.

5 That the President and Vice President of the Company he required to give their whole time and unclivised attention to the duries of their respective offices. We think this is indispensable to the proper management of so large a corporation as the New York and Eris Hallcoad Company. All of which is sespectfully submitted.

NPEPENDENT CANDIDATE FOR COMMISSION Streets and Lamps, JOSEPH R. EBLING.

M. R. EDITOR:—MY ATTENTION MAS BEEN CALLED to a card in Sunday's Herald, over the signature of "J. McNnity, M. D.," in which my numination as an independant candidate for Alderman is repudiated, and in which the M. D. declines the nomination of Inspector of Election, and indulges in some sarcastic remarks upon my nomination. In references to the nomination of McNuity, all that I have to say is that his nomination was made without any agercy on my part, and had my wishes been consulted his name would not have been upon the ticket for any effice, at least not until my name had first been taken off. I have understood that the name of McNuity was first proposed as a candidate for Constable, and I suppose that he feels chaptined at not receiving a nomination for that office of trust and profit, and hence the display of ill-feeling he exhibits towards me. In conclusion, I will add that I have been placed in remination for Alderman of the Third wart by the partiality of the citizons of the ward who regard party nominations with disfavor, without solicitation on my part and if elected I shall discharge the duties appertaining to the office honestry, fearle-sly, and to the best of my humble capacity. Respectfully,
